The Ruth Whitehead Whaley Luncheon raises funds for the Ruth Whitehead Whaley Scholarship Fund, named in honor of the legal pioneer and first African-American woman admitted to the New York State Bar. Each year, ABWA awards scholarships to law students who demonstrate not only financial need, but also a commitment to public interest or civil rights law and actively participate in community service.

Since 1976, ABWA has represented a professionally diverse body of women committed to maintaining an effective information and communication system for female attorneys of color, promoting legal assistance in the African-American community and assisting its members in the development and expression of their professional skills and talents. Join us as we celebrate 33 years of professional, academic and community achievement.
